VENPIR

Medium Rapid Intervention Vehicle

DEFENSE

EN

VENPIR

The **VENPIR** is a protected 4x4 rapid intervention vehicle, specifically designed for special forces.

It has a modular design and is built to be **versatile, agile, fast, resilient and efficient, providing excellent mobility on all types of terrain.**

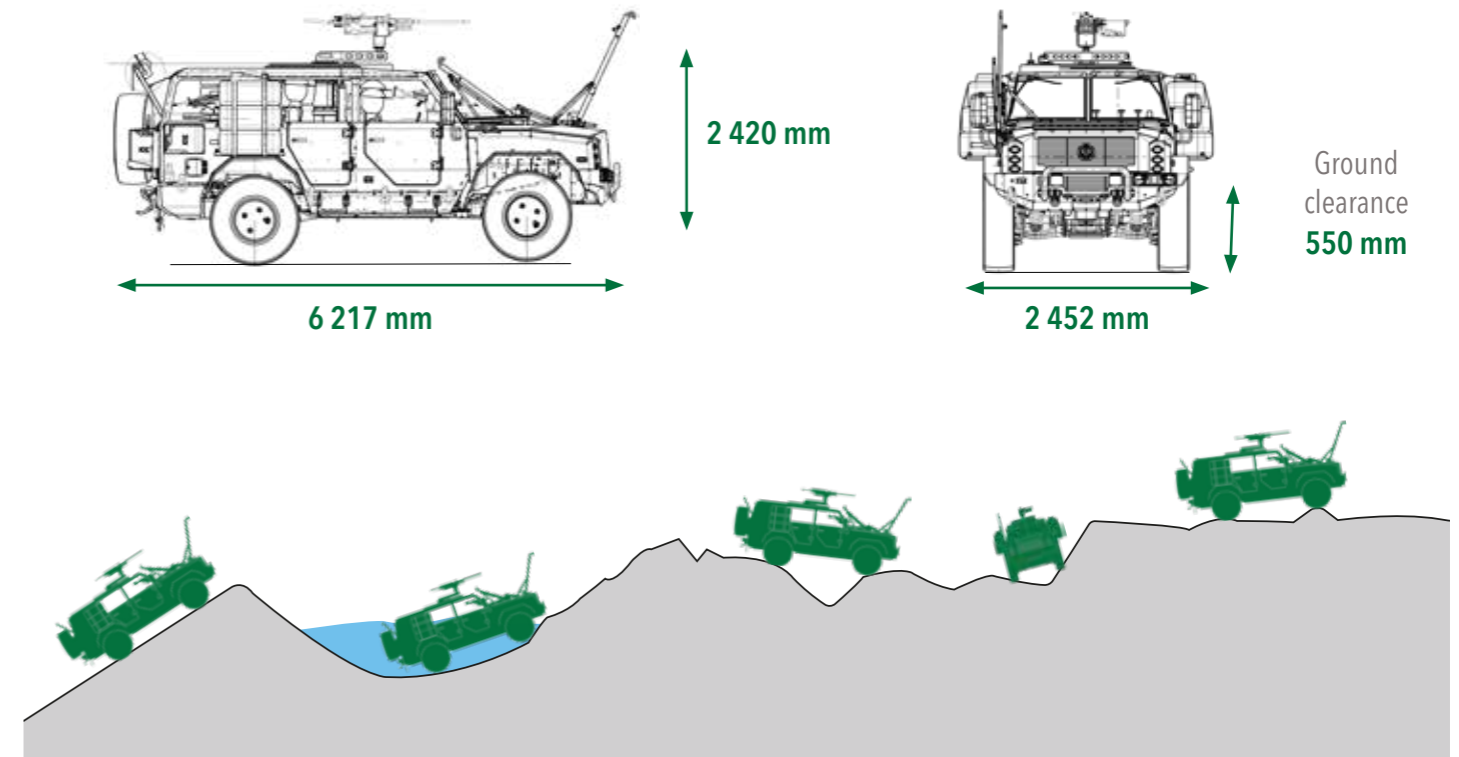

It has level 1 mine protection as standard. The vehicle can be fitted with additional ballistic protection as an option. Its internal structure makes it extremely modular, offering excellent **versatility in terms of missions.**

The **VENPIR** can be fitted with the most recent communications and/or jamming equipment. It has additional water and fuel tanks to increase its range. Its easy-to-use self-haulage winch is an advantage.

It can be easily airlifted.

Its independent suspension provides greater comfort and incomparable mobility on all terrains, better traction and a high level of stability and safety on- and off-road at low or high speed.

Technical characteristics

Slope
60 %
