The **light-weight, fast, agile** **OUTFIELDER** is a 4x4 rapid intervention vehicle specifically designed for **special forces**, particularly for intelligence and infiltration operations.

It is easy to deploy, can be air-lifted without any specific preparation and is at **ease on all types of terrains**. Its internal design can be adapted to numerous configurations. Its ballistic protection can be increased by the addition of kits.

It has additional water and fuel tanks to **increase its range**.

Its easy-to-use **self-haulage winch is an advantage**. It can be mounted in front or behind depending on the situation.
