

## SURVIVABILITY

### Recognized expertise

Particular attention is paid to characterize protection solutions, their combinations and their architectures, using explicit numerical simulations to optimize the sizing of structures to counter the diversity and plurality of threats.

For that purpose, we developed and validated our own calculation models.

This characterization is followed by experimental tests carried out in approved centers in France and abroad.

## SERVICES

### A dedicated unit

We offer our customers high-performance, long-term service support solutions.

Our innovative and flexible services allow our customers to maintain and even improve their equipment.

We coordinate operations with our industrial partners and service points around the world.

## OUR INDUSTRIAL CAPABILITIES

### For all your needs

We benefit from shared industrial facilities within the Lohr Group.

Modern, efficient and flexible, it can handle high production rates, thanks in particular to its fleet of welding robots and a semi-automated painting line.

## OUR VALUES

### Act as a pioneer and innovate

Our raison d'être is based on trust: the mutual trust of our employees acting responsibly towards each other in their respective roles, the trust we have earned from our customers in the satisfaction of their requirements and the trust of our suppliers in the reliability of the smooth running activities we conduct with them.

This trust is the result of a firm commitment in the following fields: social approach, health and safety, quality, ethics and development of our employees.

Our commitment to quality is reflected in our ISO 9001 and AQAP 2110 certifications, and our recognition of environmental issues through ISO 14001 certification.

## TACTICAL VEHICLES

**ARIVE - Armoured Infantry Vehicle**

ARIVE is a multi-purpose protected vehicle designed to carry an infantry combat group. Its robustness, mobility capabilities and reliability have made it a benchmark vehicle.

**MRAP - Mine Resistant Ambush Protected**

Balance between firepower and high survivability the MRAP, military vehicle, easy to use, designed to carry out operations in all theatres, thanks to its high road capabilities.

**APCL - Armoured Personal Carrier Light**

Protected rapid intervention vehicle designed to operate in extremely entangled areas and very varied terrains. Its long range and all-terrain capability make it an extremely versatile vehicle.

**VENPIR - Multi-purpose rapid intervention vehicle**

The VENPIR is a protected 4x4 rapid intervention vehicle, specifically designed for special forces. It has a modular design and is built to be versatile, agile, fast, resilient and efficient.

## TRAILERS

**PLST - Palletized Loading System Trailer**

Thanks to its large loading capacity and high mobility, the PLST ensures optimum supply to armed forces in all types of terrain.

**SRPB - Semi-Trailer Tank Transporter**

With excellent loading capacities (from 40 to 70t) and mobility on road or track, tank semi-trailers are used to transport heavy armored vehicles over long distances.

**LHS TRAILER - Load Handling System Trailer**

The LHS trailer allows logisticians to double their capacity without any assistance. It is ideal for the high mobility of an off-road logistics convoy.

## LOGISTICS VEHICLES

**PPLD - Multi-Purpose Recovery Truck**

French army's benchmark all-terrain recovery vehicle. It is used extensively in overseas operations. It is used for the recovery, evacuation and extraction of immobilised vehicles and machinery.

**PRV - Protected Recovery Vehicle**

8x8 vehicle with towing arm and crane. It has an armoured, pressurised cab protecting the crew from high-intensity type threats.

**IMCP - Improved Missile Command Post**

Vehicle equipped with the MISTRAL military firing-station coordination system. Highly mobile all-terrain truck designed for extreme applications.

**PPLOG - Multi-Purpose Logistic Carrier**

8x8 logistic transport vehicle which can be armoured. It features a hydraulic arm and excellent loading capability. Robust, reliable vehicle with excellent mobility on all types of terrains.

## SECURITY VEHICLE

**VBP - Multi-Purpose Armored Vehicle**

High-mobility 4x4 vehicle which can transport a team from 10 to 12 people. Specially adapted to maintaining and restoring order in degraded conditions.
